

Light Gun Machine Games List

Important Note: None of our arcade machines are supplied with any game ROMs. They are available to download and play from a publicly accessible server online. Once played the game will be deleted from the machine's memory. High scores will be saved for most games.

Every ArcadeMAX machine has access to thousands of games. Compiled here is a list of all games available to play on this ArcadeMAX system. This list applies to the following machines:

- Lazer
- Cosmos

You can search through the entire list using your device's search function (Ctrl and F on Windows Desktop, Cmd and F on Mac). On mobile, the search function is dependent on your chosen browser or PDF viewer. Use the following guide:
