

CHECKLIST

GET THE LOGISTICS SORTED WITH THIS CHECKLIST BEFORE YOUR TABLE ARRIVES. THAT WAY, ALL YOU'LL NEED TO FOCUS ON IS WHO TAKES THE FIRST SHOT!

Phase 1: The Space & Logistics

- Pick the Room: Ensure the table fits – [Click here for our Will it Fit Guide?](#)

- Measure for "Cueing Room": Don't just measure the table size. You need enough room to cue.

- Take Photos/Video of Stairs: If it's going upstairs, send it to us so we can check it for you.

- Before our team arrives, walk the route they will take. Move any furniture or rugs that could get in the way.

Phase 2: The Table Specification

- Choose Table Size: 6ft and 7ft are the standards – [Click here for our Pool Table Size Guide](#)

- Select the "Bed" Material: Slate or MDF bed

- Pick the Style & Finish: Do you want a Modern look or Traditional?

- Pick Your Cloth Type & Colour: Napped for English Pool or Speed for American Pool – [Click here for our Cloth Guide](#)

Phase 3: The Dining Functionality

- Plan for Storage: When you are playing pool, where do the dining tops go? Or, where do you place the accessories when not in use?

Phase 4: Finalising the Order

- Check Finance Options:** Check for 0% Interest-Free options or "Buy Now, Pay Later" to spread the cost.

- Review Installation Services:** Does the price include installation and levelling? For a slate table, you definitely want experts to do this.

- Accessory Kit:** Do you know if it comes with balls, cues, chalk, and a triangle, or do you need to buy them separately?
