

Every Bespoke Arcade machine comes with 800 games right out of the box, with the ability to add thousands more. You can search through the entire included games list using the "Search" function. To use the search function, use the Ctrl (Cmd on Mac) and the F key, then type the game you want to search for.

The Bespoke Arcades "Retro Cloud" has a huge collection of games that can also be downloaded to your system from a huge range of platforms. You can get a comprehensive list of available platforms for your machine after the main list (page 7)
