

[fusiontables] by Aramith

A new dimension for your dining room

A minimalist white desk and bench in a room with a bookshelf. The desk is a long, low-profile white table with a simple, clean design. A matching white bench is positioned in front of it. In the background, a white bookshelf is filled with books and decorative items. The overall aesthetic is clean, modern, and elegant.

[When conceptual design
meets elegance ...

A photograph of a modern dining room with a long wooden table and chairs, overlaid with text. The room is bright and airy, with large windows and a clean, minimalist aesthetic. The text is centered and reads: [When elegance meets multi-functionality ...]

When elegance
meets multi-functionality ...

... then Fusion is the key]

Times are changing, things get blurred, and fusion becomes more than just a nice concept : we have fusion of generations, fusion of cultures, fusion of cuisines, fusion music. Now we finally have the Fusion table.

Today, a good product is not just about a great design, it's about life, it's about people and it needs to address their needs for good times and precious moments.

Bringing emotional value and quality time is the key characteristic of the Fusion table. Built with "Know-How to entertain", the Fusion table has indeed exactly what it takes to create those unique memorable moments for you, your family and guests.

[Know-How to entertain]

While the Fusion table has a sleek elegant design, state of the art engineering and exceptional quality, it excels in adding multidimensionality to home entertainment.

The table shifts seamlessly from a pure design object, into a roomy Get2Gether dining table, transformable in seconds into a quality billiard table or a game or poker table to accompany your after dinner drinks.

As such, Aramith's innovative Dining Room Concept makes inviting, lounging or cocooning at home a truly entertaining experience.

The perfect game

Ready for something else?

Just turn the table leaves and fix any of the custom game cloths for added fun and function.

... and play pool with the after dinner drinks

After dinner, in just a couple of minutes, the Fusion table transforms in a high quality pool table. Simply push the assorted benches under the table, lift the 3 table top sections, and find the cues, Aramith balls, triangle and chalk readily waiting for you to start the game.

The after dinner drinks come along, we talk, we play, we joke...

Dine with wine ...

Functional and with a timeless modern design, the Fusion table offers generous dimensions for relaxed dining with family or friends.

Hosting up to 10 people in its standard configuration, the Fusion table is perfect for those precious family and friend reunions.

A view on lifestyles

The following pages visualize a variety of lifestyles, offering insight into what motivates and moves people. See how the Fusion table blends in and adds another dimension to their daily life.

Loft Story

After a hectic week, I like calling friends early Friday afternoon to invite them in for a simple Italian dinner. I leave the office early, drive by the grocery store and with Amy, I prepare some seafood tortellini. By seven, all of our friends are here. Everyone is in good spirits.

The windows are open and the cooling night wind adds an early summer atmosphere to the evening. We open some good wine... We laugh, we talk and we share emotions and to top off a great evening, we play a good game of pool.

Sharing great moments

Some of our friends have bought traditional pool tables and put them in the basement. One of them even put it in the garage. I preferred my pool table right in my dining room.

Tell you what, I would have had a hard time convincing Karen to put a pool table in our dining room, but with a sleek design like this, and no one ever believing that there is a high-end pool table under the top, it wasn't hard to convince her.

When it comes to family home-entertainment, a pool table beats just about everything. It has the rare capacity to bring together young and old, male and female, friends and neighbors, amateur and first time players in a game easily accessible to everyone and guaranteeing fun for everyone.

Pool is cool

For years, we've dreamed to have a modern home reflecting some of Frank Lloyd Wright's architectural concepts. And here it is, roomy with large bay windows opening-up to the nature surrounding us.

The interior design is evidently contemporary, and the Fusion table with its elegant design matches perfectly the spirit of the house. And when it opens to play a party of pool, it's definitely cool. So when the family gets together, here's a unique activity everyone enjoys.

Because team building is important

Frankly speaking, we're a rather small ad office and our customers with their last-minute campaigns know how to keep us busy. So yes, we work long hours and team-building seems like miles away.

But the Fusion table does exactly what we need. It's never planned, but once in a week, when the timing is right, we wrap up a meeting and we play a game of pool. And you know what : it creates the perfect relaxed moment that gets the team built.

Urban living with a different touch

As a young professional, living downtown is great but square footage does come with a hefty price. So, multifunctional furniture is the only way to get the most of the limited space I have.

The Fusion table is just about that. Used to have a pool room at home as a kid, I always wanted to have one in my appartement, but there simply wasn't enough room. Now with the Fusion table, I have a great dining and pool table all in one, allowing me to take entertaining my friends to a whole new dimension. And they love it.

Exactly two seconds, is what it took my dad, who just sold his large home to retire a down on Key Biscayne, to decide he needed a Fusion table over there as well. Welcome to the club, dad !

The league player

Ever since I started to become a regular player, I wanted to have my pool table at home, but it does require a lot of space, which I don't really have.

Dedicating a room was hard to do, so when the Fusion concept came along, I finally got a quality table that is at a comfortable height to dine, and can be easily raised to regulation height to let me practice at home for the next league tournament. And the kids love it.

Unique design features

Unique patent pending design features were engineered to fuse a pool table into a design dining table.

Sleek European design

The Fusion table's sleek design uses a rigid steel Space – Frame to accommodate the strength and stability required to hold the single piece slate playing surface in place. All of the pool accessories will fit on the table without anyone ever knowing what lies under the table leaves.

Patent pending pocket design

In order to fit everything in the Fusion table's 4 1/2" / 115 mm narrow top, a unique solution was created for the pockets. Using hi-tech nylon stretch cloth with memory, the patent pending pockets stretch out when they collect balls, and revert to their 1/8" / 3 mm thickness after the game.

Ready to play anytime

Unique solutions allow the accessories to be stored on the table. The void between the tops and the slate stores cues and racks. Unique patent-pending Ball-Slides move above the stretch cloth to allow balls to be stored right in the pockets without stretching out.

Patent pending Easy-Lift system

The optional spring assisted Easy-Lift system allows to raise the Fusion table with minimal effort adding 3" / 75 mm from standard 29.5" / 75 cm dining height to optimal playing height.

The system requires no maintenance and has a patent pending auto-lock auto-level feature assuring perfect leveling, and maximum stability & steadiness to the Fusion table in its upper position.

Quick & easy installation

The unique steel Space-Frame allows the use of a one-piece $\frac{3}{4}$ " / 19 mm monobed slate, which is delivered pre-fitted with Velocity PRO cloth matching the pre-fitted rails. As such, without any need to level a 3-pce slate or to fit the cloth on slate and rails, the easy & quick assembly of the Fusion table is accessible to everyone.

Matching benches

The Fusion tables also come with trendy leather benches.

To optimize your playing area, the benches will slide under your table when you are ready to play.

Multi-generation quality

The combination of state of the art equipment with the finishing expertise only passionate artisans can assure, results in a design dining pool table that everyone perceives as exceptional and that has a longevity to last several generations.

1. High quality components

Manufactured using modern design materials and a strict selection of the finest wood veneers.

2. High precision manufacturing

Using state of the art CNC machines, the Fusion table is manufactured to very tight tolerances for a precise assembly. Its wooden parts are CNC cut but finished with multi-layer varnish by artisans.

3. Rigid Space-Frame concept

The unique steel Space-Frame construction with an integrated leveling system allows an easy, quick and accurate assembly. Contrary to wooden pool tables, the rigid Space-Frame makes it totally unnecessary to correct its level afterwards, as it is not influenced by room temperature or humidity.

4. Tru-Roll Mono-bed Slate

The Fusion table is delivered with a $\frac{3}{4}$ " / 19 mm high precision cut natural Slate. Already covered with cloth, this 1-pce mono-bed slate on Fusion's rigid Space-Frame avoids all adjustment problems common with the usual 3-pce slate surfaces.

5. Easy-handling tablets

The easily lifted top tablets are all equipped with auto-positioning pins. They are colour matched with the pool table rail boards.

6. K66 Velocity rails

The Fusion pool table rail system is equipped with K66 Velocity rails, known to offer one of the best rebounds allowing a high degree of accuracy in the game.

7. Velocity PRO cloth

The Fusion table comes standard with pre-installed Velocity PRO worsted cloth which guarantees optimal speed, smooth roll, easy maintenance and longevity.

8. High quality accessories

The Fusion Table is delivered exclusively with high quality Aramith pool table accessories, featuring the famous Aramith phenolic pool ball set, 4 well finished maple cues, bridge, triangle, chalk, cue accessories, rule book...

Professional higher grade accessories are also available as an option.

[FUSION product line]

The Fusion table is available in two lines differentiated by the material used for its structure.

Wooden line : combines a veneered wooden structure with steel backing. Matching tops and rails are available in five different finishes.

Metal line : consists of an aluminium colour steel structure, and a variety of wooden veneered table top and pool table rails.

Cloth options

Fusion table is supplied standard with your choice of Velocity PRO cloth. With a 85% wool, 15% nylon content, 20 ounce weave, the worsted Velocity cloth offers excellent playability and longevity.

Optional game cloth

Check our website for the optional card, family and casino game cloths and accessories that can be fitted on the table top reverse side, to add other dimensions for your Fusion table.

Lift Mechanism

The Fusion table is available with an optional Easy-Lift mechanism.

In each leg of the table, a spring-assisted system allows just about anyone to lift the table with very few effort.

The high precision mechanism auto levels the table and is equipped with an auto-lock device that assures maximum stability and steadiness.

«Design only excels when it adds
great moments to people's life.»

Curt Bossuyt, CEO

For over 85 years, the Aramith Group has been creating & producing products that bring value to the end-user, value to the trade. Focused on leading quality products since our very start in 1923, we have continuously adapted products to the people's changing lifestyles, and our willingness to listen, look, analyse and anticipate has allowed us to be trendsetting at many times.

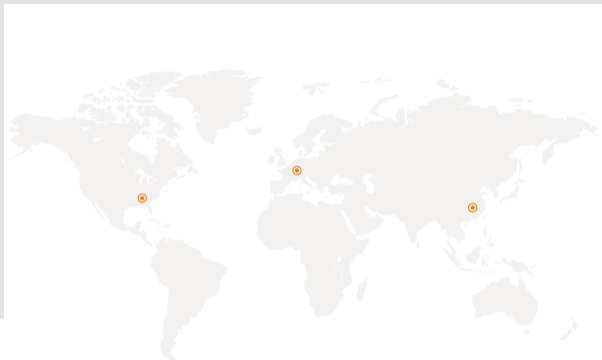

We don't take success for granted as we feel customers are entitled to be utterly demanding.

We trade in know-how to live, the art of sharing pleasure in the cosiness of one's home, to the benefit of the family, the close friends and this across generations. The Fusion table introduces a totally new product concept into the dining room. A unique product that addresses the current need for people to get together again. With its surprising Get2Gether concept the Fusion table adds multi-dimension to home entertainment. Rather than exterior signs of wealth, it adds to your home interior «Know-How» to entertain.

At a time when most of us spend numerous hours isolated in front of PC's, getting home and have fun with our friends brings back balance and meaning to our life.

We love being part of it, by «fusioning in» as your dining entertainment table. Our team enjoyed designing the Fusion table, we hope you will enjoy using it.
