Set-up Instructions

1) Installing the legs:

First, open the crate, find a table with support(preferably higher than 60cm), lift the base and put it on the table;find the tool and long screws in the plastic bag, install the 4 legs with screws and use the tool to fasten the screws as picture 3.

2) Installing the backglass box:

Lift up the backglass box and make it on right position of the main cabinet body, please note this step will requires at least 2 people to handle; find screws and metal part as picture 3; follow pictures 4,5,6,7 to install the metal part (you will need a phillips screwdriver); find out the 4 hand screws, open the backglass box door and fasten them on the screw holes (picture 8,9)

3) How to remove the lockbar:

Open the front coin door, find the metal handle in the upper right corner, pull it to the left as far as possible, then you can release and lift up the lockbar then remove it easily.
